CYBER SECURITY · AI · PRODUCT

MD IFTIUR HOSSEN RIYAD

Founder & CEO @ MyGenie , Cyber Security Engineering Student , Security Researcher & Tech Innovator

mdiftiurhossenriyad@gmail.com | +880 178 198 1789 | Gazipur, Dhaka, Bangladesh

// PROFESSIONAL PROFILE

I am a dedicated Cyber Security Engineering undergraduate at the University of Frontier Technology, Bangladesh (UFTB), driven by a deep commitment to building secure, resilient, and human-centric technology ecosystems. As the Founder & CEO of MyGenie, I merge security architecture with artificial intelligence to solve real-world accessibility and automation challenges for businesses and individuals across South Asia.

// CORE SKILLS

Programming Languages
C, C++, Java, Python, PHP, JavaScript

Web & App Engineering
HTML5, CSS3, Bootstrap, PHP, MySQL, XAMPP, FastAPI, REST APIs

Security & Auditing Tools
Nmap, Lynis, Nikto, tcpdump, Wireshark, Kali Linux

AI & Systems Architecture
RAG, Chroma Vector DB, scikit-learn, Multi-Agent Orchestration

Core Security Concepts
GRC, IDS, RBAC, Cryptography, Log Analysis, Audit Logging

Compliance Frameworks
ISO 27001, NIST SP 800-53, Bangladesh PDPA 2026

Languages
Bengali (Native), English (Working Proficiency)

// EXPERIENCE

Founder & CEO @ MyGenie — AI product & business

Bilingual AI assistant with workspace isolation, grounded business knowledge, multi-channel messaging (WhatsApp, Messenger, Email), and seamless human staff handoff.

// SELECTED PROJECTS

APON — Project Lead & Architect

A phased proposal for a trusted digital ecosystem with one verified identity across commerce, local services, student opportunities, communities, and agriculture, supported by shared security and an AI coordination layer.

AI Security Ecosystem

CampusNet — Project Lead / Security Engineer

A proposed university-verified collaboration network for students, teachers, staff, and researchers to discover peers, form teams, share opportunities, and work across campuses with privacy and security controls.

Security-First Networking

IR Prohori — Team Coordinator, AI & Product Lead

A youth digital-safety initiative combining a Bangla/English RAG assistant grounded in verified guidance with practical helplines, campus resources, workshops, and peer ambassadors.

RAG AI Social Impact

NOJORGHOR — Team Leader & Backend/Detection Lead

A proposed Windows/Linux endpoint monitoring platform for resource-limited institutions. It combines real event collection, rule and anomaly detection, and plain-Bangla explanations; effectiveness and resource use are to be measured in an isolated lab.

scikit-learn IDS ML

SURAKSHA — Founder & Product/Deployment Lead

A proposal-stage, privacy-conscious emergency coordination platform that moves from SOS and consent-based location sharing through verification, responder assignment, status updates, and case closure.

Emergency Privacy Tracking

ThreatGuard — Intrusion Detection & Authentication System

High-performance, lightweight IDS architecture with secure authentication and minimal system overhead.

C++ Cryptography OOP

SecureAudit — GRC Toolkit for Kali Linux

Multi-tool compliance auditing for Linux environments integrated into a single automated dynamic risk matrix. Integrates Nmap, Lynis, Nikto, and tcpdump with SQLite logging and HTML dashboard export.

Java SQLite Nmap Lynis Nikto

Buy & Sell Platform — E-Commerce DSA Application

Full-featured console e-commerce system with Admin/User portals, custom search (Linear/Binary), sorting (Quick, Bubble, Selection, Insertion), and a Recycle Bin - built purely on custom Data Structures.

C++ OOP File I/O DSA

EduQuiz — Full-Stack E-Learning Platform (In Progress)

Web and Android platform for real-time quiz creation, automated scoring, and student progress tracking in a unified portal.

PHP MySQL Bootstrap Java/Kotlin

// EDUCATION

Expected Graduation: June 2029 B.Sc. in Cyber Security Engineering University of Frontier Technology, Bangladesh (UFTB) Level 2, Term 1

Higher Secondary Certificate HSC - GPA 4.58 / 5.00 Mymensingh Board

Secondary School Certificate SSC - GPA 5.00 / 5.00 Mymensingh Board

// RESEARCH

UNDER PEER REVIEW ThreatGuard - Intrusion Detection & Authentication System Architecture ICCDRM 2026 , University of Dhaka Domain: Cryptography , Network Security , Intrusion Detection Systems Abstract submitted and under peer review for presentation/publication.

INDEPENDENT Historical Research - Indian Subcontinent Focus: Socio-political narratives, historical analysis, and archival history of the Indian Subcontinent.

// AWARDS & RECOGNITION

FELLOWSHIP 2026 DKC Digital Respect & Cohesion Fellowship UNDP & SURGE Bangladesh Team Coordinator for Team Prohori presenting IR Prohori. 8-month fellowship program with BDT 50,000 seed grant.

SCIENCE FAIR 2026 Ziaur Rahman Foundation Science Fair "In Search of Future Scientists 2026" Team Leader presenting NOJORGHOR Threat Detection and Response Platform.

ACADEMIC University Academic Competitions UFTB Active participant in C++ DSA coding showcases, security audit hackathons, and software engineering exhibitions.

// LEADERSHIP

Founder & CEO @ MyGenie Leading product architecture, business model execution, and technical vision.

Team Leader / Project Coordinator Guiding multi-member engineering teams - Team Prohori, Team Nojiorghor, Team Suraksha.

Peer Mentorship Assisting junior students at UFTB in Cyber Security fundamentals, Linux, C++ OOP, and DSA.

// CERTIFICATIONS

Certified Blue Team Fundamentals Certificate
Cyberwarfare Labs - Issued: October 21, 2026

Data Exfiltration - Red Team Operations
Red Team Leaders - Issued: October 20, 2026

Certified Cyber Security Analyst (C3SA) Certificate
Cyberwarfare Labs - Issued: October 18, 2026

Artifical Intelligence Model Reverse Engineering
Red Team Leaders - Issued: October 14, 2026

Artificial Intelligence Research
Red Team Leaders - Issued: October 14, 2026

CSAM Combat & Investigation Introduction
Red Team Leaders - Issued: October 14, 2026

Cyber Security Architecture v1
Red Team Leaders - Issued: October 14, 2026

Cybersecurity for Kids v1
Red Team Leaders - Issued: October 14, 2026

Cybersecurity Fundamentals and Insights
Red Team Leaders - Issued: October 14, 2026

Biohacking Essentials
Red Team Leaders - Issued: October 14, 2026

Introduction to Red Team Operation Management
Red Team Leaders - Issued: October 13, 2026

Offensive Development Introduction for Windows v1
Red Team Leaders - Issued: October 13, 2026

OpSec & Anonymity for Red Teams
Red Team Leaders - Issued: October 13, 2026

Purple Team - Active Directory and AzureAD v1
Red Team Leaders - Issued: October 13, 2026

Windows API for Red Team Introduction
Red Team Leaders - Issued: October 13, 2026

Physical PenTest Fundamentals
Red Team Leaders - Issued: October 13, 2026

Advanced OSINT Mastery
Red Team Leaders - Issued: October 13, 2026

Introduction to Python for Defensive Security
Red Team Leaders - Issued: October 12, 2026

Introduction to Python for Offensive Security
Red Team Leaders - Issued: October 12, 2026

Introduction to Offensive Security with AI
Red Team Leaders - Completed: August 17, 2026

Foundations of Log Analysis for Cyber Defense
Red Team Leaders - Completed: August 13, 2026

Malware Analysis Introduction v1
Red Team Leaders - Completed: August 13, 2026

Introduction to Bug Bounty
Red Team Leaders - Completed: August 12, 2026

AV/EDR Evasion Practical Techniques
Red Team Leaders - Completed: August 9, 2026

Offensive Agent AI Course
Red Team Leaders - Completed: August 9, 2026

AI 100: Fundamentals
TCM Security - Completed: August 7, 2026

Programming 100: Fundamentals
TCM Security - Completed: August 6, 2026

C Programming Fundamentals
10 Minute School - Completed: February 18, 2026

Linux 100: Fundamentals
TCM Security - Completed: January 15, 2026
