MD IFTIUR HOSSEN RIYAD

Cyber Security Engineering Undergraduate | Founder & CEO, MyGenie
+880 178 198 1789 | mdiftiurhossenriyad@gmail.com | Gazipur, Dhaka, Bangladesh
github.com/iftiurhossen11 | TryHackMe | Hack The Box

PROFESSIONAL SUMMARY

Cyber Security Engineering undergraduate at the University of Frontier Technology, Bangladesh (UFTB), and founder of **MyGenie**, a Bangla-first AI assistant for small businesses. Hands-on experience building intrusion detection systems, threat-detection platforms, RAG-based AI assistants and GRC audit toolkits in C++, Java and Python, backed by offensive and defensive tooling (Nmap, Lynis, Nikto, tcpdump, Wireshark, Kali Linux) and DSA-driven development. Team leader on national competition and fellowship projects; also an active author and Bengali poet. Seeking cybersecurity internships, security research and software development opportunities.

EDUCATION

University of Frontier Technology, Bangladesh (UFTB)
B.Sc. in Cyber Security Engineering — Level 2, Term 1 | Student ID: 2404011 | Expected graduation: June 2029
Higher Secondary Certificate (HSC) — Mymensingh Board, GPA 4.58/5.00
Secondary School Certificate (SSC) — Mymensingh Board, GPA 5.00/5.00

TECHNICAL SKILLS

Programming: C, C++, Java, Python, PHP, JavaScript
Web & App Engineering: HTML5, CSS3, Bootstrap, PHP, MySQL, XAMPP, FastAPI, REST APIs
Security Tools: Nmap, Lynis, Nikto, tcpdump, Wireshark, Kali Linux
AI & Systems: RAG, Chroma Vector DB, scikit-learn (Isolation Forest), multi-agent orchestration
Security Concepts: GRC, IDS, RBAC & workspace isolation, cryptography, log analysis, malware analysis, audit logging, Zero Trust
Frameworks: ISO 27001, NIST SP 800-53, Bangladesh PDPA 2026
Core CS: Data Structures & Algorithms, OOP

STARTUP & LEADERSHIP

MyGenie — Bangla-first AI Assistant for Personal & Business Use

Founder & CEO / Product & Security Lead | Co-founders: Md Eyasin (CTO), Md Zahed Hossen (COO)

- Bilingual AI assistant with workspace isolation, grounded business knowledge, multi-channel messaging (WhatsApp, Messenger, Email) and human staff handoff
- Own product vision, security architecture, RBAC, workspace isolation, prompt grounding and MVP deployment

Team Leader / Coordinator — Team Prohori, Team Nojorghor, Team Suraksha (national research and competition proposals)
Peer Mentor — Supporting junior UFTB students in cyber security fundamentals, Linux, C++ OOP and DSA

FEATURED PROJECTS

NOJORGHOR — Threat Detection & Response Platform

Team Leader & Backend/Detection Lead | Working prototype | Ziaur Rahman Foundation Science Fair 2026

- Endpoint monitoring platform for schools, small businesses and labs: rule-based detection plus scikit-learn Isolation Forest anomaly modeling
- Automated plain-language Bengali alert explanations and guarded blocking mechanisms

IR Prohori — Security-First AI Assistant for Digital Safety

Team Coordinator, AI & Product Lead (Team Prohori) | Working prototype | DKC Fellowship 2026 submission

- RAG-based bilingual assistant grounded in verified cyber laws, safety guides and helpline directories, giving Bangladeshi youth private Bengali guidance on cyberbullying and online harassment

ThreatGuard — Intrusion Detection & Authentication System

Team: Momtasin Tamanna (2404012) | Tech: C++, Cryptography, OOP

- Lightweight IDS with a secure authentication module built on C++ OOP principles
- Abstract submitted to ICCDRM 2026, University of Dhaka (under peer review) | GitHub

SecureAudit GRC Toolkit for Kali Linux

Course: SEC 115 | Team: Atiqur Rahman (2404029), Md. Eyasin (2404032) | Tech: Java, SQLite

- Integrates Nmap, Lynis, Nikto and tcpdump with SQLite logging; dynamic risk matrix (likelihood vs. impact) with ISO 27001 / NIST SP 800-53 checks
- HTML dashboard export for audit reporting | GitHub

CampusNet — Secure Inter-University Academic & Collaboration Network

Project Lead / Security Engineer | Prototype stage

- Identity verification workflows, privacy matrices, project team matching, CTF/hackathon hub and encrypted file sharing

SURAKSHA — Smart Emergency Alert & Rescue Coordination Platform

Founder & Product/Deployment Lead | Prototype stage (pre-seed proposal)

- One-tap SOS, missing-person lifecycle management, location tracking, operator triage dashboard and tamper-evident audit logging

APON — Multi-Service Trusted Digital Ecosystem
Project Lead & Architect | Prototype stage
- Commerce, services, education, community and agriculture modules under one verified digital identity with a multi-agent AI orchestration layer

Buy & Sell Platform — E-commerce DSA Application
Team: Milton Roy (2404001) | Tech: C++ OOP, File I/O
- Console e-commerce system with Admin/User portals, custom search (Linear/Binary), sorting (Quick, Bubble, Selection, Insertion) and a Recycle Bin | GitHub

EduQuiz — E-Learning & Quiz Platform (In Progress)
Course: PROG 212 | Team: Md. Eyasin (2404032) | Tech: PHP, MySQL, Bootstrap, Java/Kotlin
- Web and Android platform for quiz creation, automated scoring and progress tracking | GitHub

COMPETITIONS & FELLOWSHIPS

- **DKC Digital Respect & Cohesion Fellowship 2026** (UNDP & SURGE Bangladesh) — Team Coordinator, Team Prohori (IR Prohori)
- **Ziaur Rahman Foundation Science Fair 2026** ("In Search of Future Scientists") — Team Leader, NOJORGHOR
- **University competitions** — C++ DSA coding showcases, security audit hackathons, software engineering exhibitions

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **AV/EDR Evasion Practical Techniques** — Red Team Leaders, Aug 9, 2026
  https://courses.redteamleaders.com/completion/e9da2843526e87ab
- **Offensive Agent AI Course** — Red Team Leaders, Aug 9, 2026
  https://courses.redteamleaders.com/completion/c579ca5f7792ac43
- **Introduction to Bug Bounty** — Red Team Leaders, Aug 12, 2026
  https://courses.redteamleaders.com/completion/c2bc61353a3369d4
- **Foundations of Log Analysis for Cyber Defense** — Red Team Leaders, Aug 13, 2026
  https://courses.redteamleaders.com/completion/4d408535454ca821
- **Malware Analysis Introduction v1** — Red Team Leaders, Aug 13, 2026
  https://courses.redteamleaders.com/completion/27092dfb268dea0b
- **Introduction to Offensive Security with AI** — Red Team Leaders, Aug 17, 2026
